Subject: Bristol Bay - NEPA/404c Coordination Update

David,

Providing an update on follow-up from our 11/8/18 meeting about NEPA/404c coordination. Our goal was to check-in and work toward making sure that we are getting the right 404c related input to the NEPA team.

As a result of a few conversations and meetings the following has occurred.

- Palmer has confirmed that he is really likely one of the key people to provide technical 404c related input. And, that he doesn't really have a back-up. We talked about the fact that it is helpful that Mark Douglas, Kate Scofield (sp?) and Barb Butler are providing input.
- Palmer highlighted his main areas of focus to Molly and has communicated his schedule constraints.
- As for OGC, Heidi and Palmer have agreed that Palmer will flag issues for Heidi.
- As for OGC NEPA (Alison), the plan is for Ashley to be the primary reviewer, talk to Kim Owens when needed, and raise issues to Alison at OGC as needed. OGC's NEPA lawyers should not necessarily be directly involved because OFA has decided they don't need to see these Preliminary DEIS comments.
- Carrie Wehling at OGC will communicate to senior leaders David and Justin that we do not currently see a need to OGC front office involvement on the regional preliminary DEIS comments.

Altogether, I think we have made progress on clarifying how to make sure 404c technical and legal input is provided to the NEPA team in an effective manner. Happy to have more direction or suggestions and at this point I propose we have 404c/NEPA coordination as an agenda topic at our next check-in with you.

Subject: Letter to the Administrator

Ryan,

I'm attaching a letter to Administrator Pruitt to this email. I would appreciate it if you could bring this to his attention. He spoke a couple of weeks ago to a group of conservative organizations. During that meeting, he was asked about the Pebble preemptive veto. His answers were conveyed to us, and this letter reacts to some of the things he said.

One of the things he said was that he was willing to hear new information about Pebble. This letter contains information which the Administrator clearly has not heard before. It also contains a request to meet with him so that we can discuss these matters in greater detail. Anything you can do to help facilitate such a meeting would, of course, be greatly appreciated.

Look forward to hearing from you.

Best,

Peter

Subject: RE: Field Logistics

Estrella:

I have attached the site services request form that our operations staff need to finalize your arrangements. I went ahead and filled out most. Please review and add your phone number (cell phone preferably) and whether anyone has any food allergies or special needs. You can send the completed form back to me and I will submit it to site. I have requested individual rooms for each of you.

Meals are cafeteria style. For your arrival day, it will be easiest if you can bring your lunch with you. For the remaining days you will make a bag lunch at breakfast to bring with you to the field.

We will provide in-town transportation to/from the airport each day in one of our vehicles. Work days are 12 hours, with 10 in the field and one hour on either end for muster, briefings, etc. Crews normally do not return to base during the work day unless weather limits flight operations. Low clouds and/or high winds are typically the only conditions that will restrict helicopter travel.

No firearms are permitted at any Pebble facility or in helicopters. Trained bear guards will be provided with each crew. Guards are in constant radio contact with site operations. Alcohol is prohibited at any Pebble facility.

Safety training and site orientation will take place as soon as you arrive. That should take about an hour, followed by a 20-minute helicopter safety briefing. We provide basic PPE (safety goggles, high visibility vest, hearing protection). You are welcome to bring your own as long as the operations manager approves. Field gear requirements are what you would normally bring.

Accommodations are 150/person/day. We will invoice you after your trip. Our site staff does not have the ability to accept payments. Helicopter time will likewise be invoiced to you based on the per seat cost and number of flight hours logged. Cost may vary depending on which helicopter is available.

Please let me know if you have any other questions.

Thanks,
Tim

Hi Tim,

I think I left a voice mail and I am wondering if you received it.

In any case, please let me review with you our itinerary:

Arrival time @ Iliamna: July 9 (Monday) at 0900.

Departure time: July 11 @ 4:30 p.m.

Corps will disburse your company directly for hotel/helicopter costs.

Hotel:

Check in July 9th

Check out July 11th

Meals:

July 9th (lunch brown bag - Diner)

July 10th (all meals)

July 11th (breakfast & lunch).

Helicopter: as per time-usage logs (coordination field work with HDR at this point).

Truck Rental: We will take your offer of picking us up at the airport on Monday July 9th.

You mentioned we will have safety training upon arrival on July 9th before heading to the field. Please let us know if there is anything else we need to be aware of.

Thank you very much for your help,

Estrella

Lee and Crystal,

I hope all is well. I'm writing today to request a meeting with you, Lee, for a group of Alaskan Native leaders that will be in Washington on November 13 and 14 to discuss issues related to the Pebble Mine. The group will include:

Brad Angasan Alaska Peninsula Corporation
Ventura Samaniego Kijik Corporation
Lisa Reimers Iliamna Development Corporation
Sue Anelon Iliamna Natives Limited
Chasity Anelon Pebble Employee/ Iliamna Resident
Rhannon Nanalook Pebble Employee/ Iliamna Resident
Shannon Johnson South Central foundation Clinic & Lake and Peninsula School Board

This group will be meeting with the Alaska delegation, with other members and staff in Congress, and with representatives of the Administration (at EPA, Interior and elsewhere).

I'm hoping we can find some time for this group on one of those two days. Let me know if that might work, or if you need anything else from me.

Best wishes,

Peter

Lee and Crystal,

We have had a change to the group of Native Alaskans that are visiting this week. Abe Williams and Margie Olympic are no longer able to come. The group still includes:

- Brad Angasan, President & CEO of Alaska Peninsula Corporation (*Represents Port Heiden, South Naknek, Ugashik, Kokhanok & Newhalen*);
- Ventura Samaniego, President & CEP of Kijik Corporation (*Represents Lake Clark area & Six Mile Lake*); and
- Henry Olympic, President of Newhalen Tribal Council (*Represents Newhalen*).

They will be accompanied by me and by Shalon Harrington, Chief of Staff for the Pebble Limited Partnership.

Please let me know if you have any questions. We look forward to seeing you.

Sincerely,

Peter

Thanks, Lee. I completely understand, better than most, how busy you guys are. I appreciate your willingness to try to make time. And you understand better than anyone how tough it is to get here from Alaska, so I really hope they will get to speak with you.

But we will stand by to hear more. Thanks for considering the request.

Subject: meeting request

Dear Lee and Crystal,

I hope all is well. I'm reaching out to you because a group of Alaskan natives is coming to Washington for meetings on June 5 and 6 regarding the Pebble mine. They are hopeful that Lee would have time to meet with them. At this point, their schedule is free on both days, except for 1:00 on the 6th, when they meet with Representative Young.

The group includes:

Abe Williams – PLP Employee, Commerical Fisherman, BBNC Shareholder, Grew up in Bristol Bay
Brad Angasan – VP of Corporate Affairs for Alaska Peninsula Corporation
Ventura Samaniego – President & CEO of Kijik Corporation
Margie Olympic – PLP Site Staff & Newhalen Tribal Member
Henry Olympic – President of Newhalen of Tribal Council.

Can you let me know if Lee has has time on either of those days?

Thanks.

Subject: Meeting with Deantha Crockett of the Alaska Miners Association

Lee and Crystal,

Deantha Crockett, head of the Alaska Miners Association is going to be in Washington DC the week of October 15. She would very much appreciate the opportunity to meet with Lee while she is there.

The Alaska Miners Association is the leading trade association for the mining industry in Alaska. Lee, you know better than most how important mining is to Alaska. The industry provides some 4,500 direct mining jobs: \$700 million in direct and indirect payroll; some of the best-paying jobs in the state (nearly \$109,000 estimated annual average wage, more than twice the state average for all sectors of the economy); \$143 million in state and local government revenue; and some \$250 million in payments to Alaska Native Corporations.

Deantha tells me that she has significant availability early in that week (the 15th, 16th and 17th), though she is booked up on Thursday and Friday (the 18th and 19th). I have copied her on this email so that you can communicate with her directly.

I very much hope you can meet with her, Lee, and appreciate your consideration of this request.

Best,

Peter Robertson

Lee and Crystal,

I hope all is well. I'm writing today to request a meeting with you, Lee, for a group of Alaskan Native leaders that will be in Washington on November 13 and 14 to discuss issues related to the Pebble Mine. The group will include:

Brad Angasan Alaska Peninsula Corporation
Ventura Samaniego Kijik Corporation
Lisa Reimers Iliamna Development Corporation
Sue Anelon Iliamna Natives Limited
Chasity Anelon Pebble Employee/ Iliamna Resident
Rhannon Nanalook Pebble Employee/ Iliamna Resident
Shannon Johnson South Central foundation Clinic & Lake and Peninsula School Board

This group will be meeting with the Alaska delegation, with other members and staff in Congress, and with representatives of the Administration (at EPA, Interior and elsewhere).

I'm hoping we can find some time for this group on one of those two days. Let me know if that might work, or if you need anything else from me.

Best wishes,

Peter

Lee and Crystal,

We have had a change to the group of Native Alaskans that are visiting this week. Abe Williams and Margie Olympic are no longer able to come. The group still includes:

- Brad Angasan, President & CEO of Alaska Peninsula Corporation (*Represents Port Heiden, South Naknek, Ugashik, Kokhanok & Newhalen*);
- Ventura Samaniego, President & CEP of Kijik Corporation (*Represents Lake Clark area & Six Mile Lake*); and
- Henry Olympic, President of Newhalen Tribal Council (*Represents Newhalen*).

They will be accompanied by me and by Shalon Harrington, Chief of Staff for the Pebble Limited Partnership.

Please let me know if you have any questions. We look forward to seeing you.

Sincerely,

Peter

Hi David – Attached is Region 10's draft NEPA scoping letter. I think the key discussions appear on pages 3-10. We are still considering whether we will have any staff level edits/comments to suggest but we wanted to get this to you so you have an opportunity to review by the Tuesday COB deadline.

Thanks,
Heidi

Attachments: Western Caucus .pdf; Corps NOI to prepare an EIS.PDF

Hi David – Below is a status update of PLP's permit application. I have attached the FR notice I quoted from just in case you wanted to see it. Carrie mentioned that the Congressional Western Caucus is coming in for a meeting. I wanted to make sure you were of the attached letter from some Caucus members. OW is currently preparing a draft response. Also, as you may recall, staff worked on a paper responding to PLP's most recent letters. We wanted to see when might be a good time to send that paper to you.

Heidi

+++++

- Pebble's permit application is currently in the NEPA scoping phase.
- Substance: The Corps' public notice announcing its intent to issue the EIS explained that "[s]coping is conducted to assist in determining the scope of analysis, significant issues and alternatives to be analyzed in depth in the DEIS."
 - The Corps' public notice indicated that the draft EIS will identify a range of alternatives and evaluate reasonable and practicable alternatives, including "the no action alternative, the applicant's proposed alternative, alternative mine locations and mine plans, alternative mining methods and processes, alternatives that may result in avoidance and minimization of impacts, and mitigation measures not in the proposed action."
 - The notice identified significant issues that will be analyzed in the draft EIS related to the effects of the proposed Pebble mine and associated infrastructure construction, operation and closure. These significant issues include "wetlands, water quality, air quality, hazardous materials, fish and wildlife, vegetation, cultural resources, food production, land use, needs and welfare of the people (socioeconomics including commercial fishing and tourism), recreation, general environmental concerns, historic properties, navigation, and safety."
- Process: The Corps' public scoping period ends on June 29, 2018.
 - Region 10 is preparing a draft scoping letter.
 - The draft letter will come to headquarters (OW, OFA and OGC) for review June 4th-June 12th.

Individuals are required to self-report any arrests, charges or convictions that would keep the individual from obtaining or maintaining a favorable suitability or fitness determination. Programs impacted are referenced within the 42 U.S. Code § 13041 and include impacted individuals such as employees, DoD contractors, providers, adults residing in a family child care home, volunteers, and others with regular reoccurring contact with children.

Affected Public: Individuals or Households.

Annual Burden Hours: 1,250.

Number of Respondents: 5,000.

Responses per Respondent: 1.

Annual Responses: 5,000.

Average Burden per Response: 15 minutes.

Frequency: On occasion.

Respondents are DoD contractors, family child care providers, family child care adult family members residing in the home, and specified volunteers who provide child care services for children under age 18. This form will be initiated by DoD staff and will be maintained in the initiating DoD offices and/or appropriate Human Resources or Security Offices.

Dated: March 23, 2018.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Intent To Prepare an Environmental Impact Statement (EIS) for the Pebble Project

AGENCY: U.S. Army Corps of Engineers, Department of Defense.

ACTION: Notice of intent.

SUMMARY: The Alaska District, U.S. Army Corps of Engineers (the Corps) intends to prepare a Draft Environmental Impact Statement (DEIS) to assess the potential social, economic, and environmental impacts associated with the proposed Pebble open pit mine in wetlands, streams and Ocean near Cook Inlet. The EIS will assess potential effects of a range of alternatives.

DATES: Public scoping meetings are tentatively scheduled in Anchorage, Homer, Dillingham, King Salmon (Naknek), Iliamna (Newhalen), Nondalton, and Kokhanok (Iguigig) will occur in mid-April 2018. Information

about these meetings and meeting dates will be published locally, posted at <http://www.pebbleprojecteis.com>, and available by contacting the Corps.

ADDRESSES: U.S. Army Corps of Engineers, P.O. Box 6898, Joint Base Elmendorf Richardson, AK 99506-0898.

FOR FURTHER INFORMATION CONTACT:

Questions about the proposed action and the Draft EIS should be referred to: Mr. Shane McCoy, Regulatory Division, telephone: (907) 753-2715 at <http://www.pebbleprojecteis.com> or by mail to the above address. To be added to the project mailing list and for additional information, please visit the following website: <http://www.pebbleprojecteis.com>.

SUPPLEMENTARY INFORMATION: An application for a Department of the Army permit was submitted by the Pebble Limited Partnership pursuant Section 404 of the Clean Water Act (33 U.S.C. 1344) and Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403) on December 22, 2017, and was advertised in a Public Notice, POA-2017-271, on January 5, 2018. The public notice is available on Alaska District's public website at: http://www.poa.usace.army.mil/Portals/34/docs/regulatory/publicnotices/2018/POA-2017-271%20Pebble_PN.pdf?ver=2018-01-05-153755-640.

1. *Description of the Proposed Project.* Pebble Limited Partnership (PLP) is proposing to develop the Pebble copper-gold-molybdenum porphyry deposit as an open-pit mine, with associated infrastructure, in southwest Alaska, north of Lake Iliamna. The proposed project would require approximately four years to construct, with a projected mine life of approximately 20 years. Major project components include excavation of an open pit, that ultimately would be approximately 6,500 feet long by 5,500 feet wide, with depths between 1,330 and 1,750 feet; a tailings impoundment with 1.1 billion tons storage volume; a low grade ore stockpile with the capacity to store up to 330 million tons; an open pit overburden stockpile; a mill facility processing approximately 160,000 tons of ore per day; a natural gas-fired power plant with a total connected load of 230 mega-watt (MW), supplied by a 188-mile, 10 to 12-inch diameter, natural gas pipeline across Cook Inlet and Iliamna Lake to the Mine Site; and transportation infrastructure including a 30-mile road from the Mine Site to a ferry terminal on the north shore of Iliamna Lake, an 18-mile crossing with an ice-breaking ferry to a terminal on the south shore of Iliamna Lake, and a 35-mile road to the proposed

Amakdedori Port on Cook Inlet. The proposed mine and related facilities would have a total footprint of approximately 5.9 square miles.

The pipeline route would originate on the Kenai Peninsula, connecting to the existing gas pipeline infrastructure near Happy Valley. A metering station would be constructed at the off-take point and the pipeline would then follow south along the Sterling Highway for 9 miles to a gas-fired compressor station north of Anchor Point. The compressor station would feed a 94-mile subsea pipeline from the east shore of Cook Inlet to Amakdedori Port on the west shore. A second gas-fired compressor station would be located at the port site. The pipeline route would then follow a 30-mile mine access road to the south shore of Iliamna Lake, where the pipeline would enter Iliamna Lake for approximately 18 miles. The pipeline would come ashore at on the north shore of the lake, where it would follow the mine access road to the Mine Site.

2. *Alternatives.* A range of alternatives of the proposed action will be identified, and those found to be reasonable and practicable will be fully evaluated in the DEIS, including: the no action alternative, the applicant's proposed alternative, alternative mine locations and mine plans, alternative mining methods and processes, alternatives that may result in avoidance and minimization of impacts, and mitigation measures not in the proposed action. However, this list is not exclusive and additional alternatives may be considered for inclusion.

3. *Scoping Process and Public Involvement.* The scoping period will extend from April 1, 2018, through April 30, 2018. Scoping is conducted to assist in determining the scope of analysis, significant issues and alternatives to be analyzed in depth in the DEIS. Comments should be as specific as possible. Additional public involvement will be sought through the implementation of the public involvement plan and the agency coordination team.

4. *Significant Issues.* Numerous issues will be analyzed in depth in the DEIS related to the effects of the proposed Pebble mine and associated infrastructure construction, operation, and closure. These issues will include, but will not be limited to, the following: wetlands, water quality, air quality, hazardous materials, fish and wildlife, vegetation, cultural resources, food production, land use, needs and welfare of the people (socioeconomics including commercial fishing and tourism), recreation, general environmental

concerns, historic properties, navigation, and safety.

5. *Additional Review and Consultation.* Additional review and consultation which will be incorporated into the preparation of the DEIS will include, but are not necessarily limited to coordination under Section 401 of the Clean Water Act, Essential Fish Habitat coordination; consultation under Section 7 of the Endangered Species Act; and consultation under the National Historic Preservation Act

Shelia Newman,

*Deputy Chief, Regional Regulatory Division,
U.S. Army Corps of Engineers, Alaska District.*

BILLING CODE 3720-58-P

DEPARTMENT OF EDUCATION

[Docket No.: ED-2018-ICCD-0030]

Agency Information Collection Activities; Comment Request; Expanding Opportunity Through Quality Charter Schools Program: Technical Assistance To Support Monitoring, Evaluation, Data Collection, and Dissemination of Best Practices

AGENCY: Office of Innovation and Improvement (OII), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, ED is proposing an extension of an existing information collection.

DATES: Interested persons are invited to submit comments on or before May 29, 2018.

ADDRESSES: To access and review all the documents related to the information collection listed in this notice, please use <http://www.regulations.gov> by searching the Docket ID number ED-2018-ICCD-0030. Comments submitted in response to this notice should be submitted electronically through the Federal eRulemaking Portal at <http://www.regulations.gov> by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. *Please note that comments submitted by fax or email and those submitted after the comment period will not be accepted.* Written requests for information or comments submitted by postal mail or delivery should be addressed to the Director of the Information Collection Clearance Division, U.S. Department of Education, 400 Maryland Avenue SW, LBJ, Room 216-44, Washington, DC 20202-4537.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Patricia Kilby-Robb, 202-260-2225.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Expanding Opportunity through Quality Charter Schools Program: Technical Assistance to Support Monitoring, Evaluation, Data Collection, and Dissemination of Best Practices.

OMB Control Number: 1855-0016.

Type of Review: An extension of an existing information collection.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 102.

Total Estimated Number of Annual Burden Hours: 136.

Abstract: This request is for an extension of OMB approval to collect data for the Expanding Opportunity through Quality Charter Schools Program: Technical Assistance to Support Monitoring, Evaluation, Data Collection, and Dissemination of Best Practices formerly titled Charter Schools Program (CSP) Grant Awards Database. This current data collection is being coordinated with the EDFacts Initiative to reduce respondent burden and fully utilize data submitted by States and

available to the U.S. Department of Education (ED). Specifically, under the current data collection, ED collects CSP grant award information from grantees (State agencies, charter management organizations, and some schools) to create a new database of current CSP-funded charter schools. Together, these data allow ED to monitor CSP grant performance and analyze data related to accountability for academic purposes, financial integrity, and program effectiveness.

Dated: March 23, 2018.

Tomakie Washington,

Acting Director, Information Collection Clearance Division, Office of the Chief Privacy Officer, Office of Management.

BILLING CODE 4000-01-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0819]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the

Congress of the United States
House of Representatives
Washington, DC 20515-0301

May 3, 2018

The Honorable Scott Pruitt
Administrator
U.S. Environmental Protection Agency
William Jefferson Clinton Building
1200 Pennsylvania Ave., NW
Mail Code: 1101A
Washington, D.C. 20460

Dear Administrator Pruitt,

We write to express our concerns with regards to the EPA's decision not to scrap the Obama Administration's preemptive veto, also known as the Proposed Determination, for the prospective Pebble Limited Partnership mining project in Bristol Bay, Alaska. It is our view that the process has deviated into improper and irregular territory for having engaged in a repeated, economically damaging back-and-forth as to whether the EPA would exercise a preemptive veto of the project under Section 404(c) of the Clean Water Act. This has already set a harmful precedent which has the potential to undercut the standard National Environmental Policy Act (NEPA) review processes for years to come.

In a future administration, this dangerous precedent could be utilized as a tyrannical tool to restrict entire territories of the United States based on unilateral zoning edicts of the EPA on the basis of "unacceptable adverse" environmental effects – and decided under a paucity of evidence or before a project has even been proposed. It therefore poses a threat to the integrity of our entire project review system while casting the spectre of a double standard over this particular project.

We the undersigned understand and value the dual role EPA has to play in exercising its Congressionally-mandated task of ensuring environmental and ecological integrity right alongside its obligation to ensure strict due process in its regulatory actions. We would also not miss the chance to recognize that you, Administrator Pruitt, are a longtime friend of responsible economic and resource development. In this case, you have taken numerous steps to facilitate a holistic fact-finding process and right wrongs of the past administration which will allow Pebble ample opportunities to propose and defend a mining plan that is consistent with environmental protection of Bristol Bay. That is a world of improvement over the tenure of those who served at EPA prior to you.

It is because we recognize the above points that we raise the below concerns. The EPA's January 26, 2018 decision not to overturn what was widely considered a preemptive veto of the Pebble Limited Partnership mining project by the Obama Administration has sowed tumult for interested companies like Pebble and Northern Dynasty Minerals, for capital markets and for multiple mining stocks and indexes. Northern Dynasty Minerals' stock dropped more than 40% in the five trading days following EPA's announcement, and there is concern that the industry partnership comprising the potential project could fall apart due to this regulatory uncertainty, before a project proposal has even been fully analyzed.

This is surely inconsistent with the intent of our project review processes enshrined in law, and the due process that is accorded to participants thereof. Our system is designed to facilitate the proposal of credible projects and sift the acceptable from the unacceptably adverse. What we have seen in this instance, however, is unpredictable regulatory action imperiling private entities and whole industries before a project has been sufficiently reviewed, a mere few weeks after an actual mine plan was finally allowed to be proposed.

If EPA's actions in this regard were necessary in order for it to execute its statutory mandate of environmental protection, then they would likely represent the proper steps having been taken. The public interest comes first as the mission of our federal agencies, and as Members of Congress we absolutely support that mission. However, it is well-known that the environmental protection of Bristol Bay is not dependent on the withdrawal of the Proposed Determination being suspended. Those conditions are independent of one another because the Pebble Limited Partnership mining project has yet to undergo the rigors of the Environmental Impact Statement (EIS) which requires the analysis of in-depth plans as well as intensive ecological, chemical and geological study.

As such, we respectfully question your premise when you stated during the announcement of the suspension, "Today's action allows EPA to get the information needed to determine what specific impacts the proposed mining project will have on those critical resources." Such an outcome is secured regardless of the suspension and as a consequence of the EIS, insofar as its scoping will encompass concerns surrounding the Bristol Bay Watershed. *That the necessary safeguards are already in place makes the damage that has been done to the interested parties all the more regrettable.*

The effect of suspending this withdrawal of the Proposed Determination is to retain an arbitrary and unnecessary "failsafe" against the Pebble Mine project. But if we believe our NEPA project review process is sufficiently fair and robust so as to constitute federal policy towards environmental review and mineral development, we should abstain from abruptly interjecting options which diverge from it in order to respond to a perceived threat. That law exists to analyze and deal with such a threat on its own, in a fair and comprehensive manner. In the case of its general failure as a protective statute, the proper remedy is legislative rather than agency action.

To our knowledge, there has been no such general failure of NEPA to establish scoping and criteria that ensures environmental integrity. As such, in taking this dramatic and rare step, the burden is on EPA to demonstrate that its mandate of environmental stewardship is substantially unlikely to be fulfilled following the completion of an EIS, such that queuing a disruptive preemptive veto at this stage is a compelling necessity for the public good. With a project only having just been proposed and not fully analyzed, this is simply not possible at this juncture under even the best scientific scrutiny.

The EPA's decision is also at odds with the Administration's stated policy on mineral development. Interior Secretary Ryan Zinke, in conjunction with the President, has made mineral development a top policy priority. In December 2017, the President signed an Executive Order promoting natural resource development to reduce foreign dependence on strategic minerals, including copper, by "increase[ing] in private-sector domestic exploration" and "streamlining leasing and permitting processes to expedite exploration, production, processing, reprocessing, recycling, and domestic refining of critical minerals." Overwhelmingly, the Administration's stance towards mining projects and minerals has been to treat them as issues of economic and national security, because they are.

As such, we have two requests. Firstly, we ask that the Proposed Determination be withdrawn, as was originally planned. Going forward with the withdrawal of the preemptive veto makes a return to the due process track and goes towards repairing the harm caused to interested parties by process uncertainty to date. It retains the protections of a full review process without setting forth a terrible precedent as well as further damaging entities and industry.

Secondly, we ask that the EPA act in accordance with the outcomes of the normal NEPA process, which requires rigorous and scientific environmental review, before deciding whether or not to let the Pebble Limited Partnership mining project proceed.

We are honored to have the support of the following organizations and individuals that agree with our position and have endorsed this letter: American Exploration & Mining Association, National Mining Association, Women's Mining Coalition, Competitive Enterprise Institute, Americans for Limited Government, Arizona Mining Association, Alaska Miners Association, American Resources Policy Network, Arizona Pork Council, Arizona Rock Products Association, AZ BASS Nation, Bass Federation-AZ, Hibbing Area Chamber of Commerce, Hudbay Rosemont Copper Project, Idaho Mining Association, MiningMinnesota, New Mexico Cattle Growers' Association, New Mexico Wool Growers Inc., Southern Arizona Business Coalition, SRT Outdoors, Sulphur Springs Valley Electric Cooperative, Utah Mining Association, Yavapai Cattle Growers Association, Arizona District 6 Senator Sylvia Allen, Apache County Supervisor Doyel Shamley and Yavapai County Supervisors Thomas Thurman and Rowle Simmons.

Thank you for your thoughtful consideration of our comments. We look forward to your timely response.

Sincerely,

Paul A. Gosar, D.D.S.

Thanks David. We wanted to see if would be okay to meet tomorrow instead of today. A number of us (Carrie, Karin and I) are in Potomac yards today at the NCAC. I checked with the Region and pushing the meeting back one day would not impact their schedule. Also, Ashley Palomaki (lead ORC) is in town for the NCAC and could join us in person tomorrow as well if that would be okay with you.

Lee and Crystal,

I hope all is well. I'm writing today to request a meeting with you, Lee, for a group of Alaskan Native leaders that will be in Washington on November 13 and 14 to discuss issues related to the Pebble Mine. The group will include:

Brad Angasan Alaska Peninsula Corporation
Ventura Samaniego Kijik Corporation
Lisa Reimers Iliamna Development Corporation
Sue Anelon Iliamna Natives Limited
Chasity Anelon Pebble Employee/ Iliamna Resident
Rhiannon Nanalook Pebble Employee/ Iliamna Resident
Shannon Johnson South Central foundation Clinic & Lake and Peninsula School Board

This group will be meeting with the Alaska delegation, with other members and staff in Congress, and with representatives of the Administration (at EPA, Interior and elsewhere).

I'm hoping we can find some time for this group on one of those two days. Let me know if that might work, or if you need anything else from me.

Best wishes,

Peter

Ashley, Heidi, Palmer, Cara and Carrie,

I'm suggesting this meeting as an opportunity for us to discuss how to effectively manage ORC, OGC and OW input on EPA's comments on preliminary Bristol Bay NEPA documents.

I think everyone has the same goal, to ensure that EPA's input on the NEPA process is in line with and helpful for any EPA actions related to Bristol Bay. I'm looking forward to a discussion on how to ensure we meet our shared goal in an effective and efficient as possible way.

Gov. Walker urges Army Corps to suspend environmental review process for Pebble

- Author: Annie Zak

Gov. Bill Walker and Lt. Gov. Byron Mallott on Friday asked the U.S. Army Corps of Engineers to suspend the environmental review process for the proposed Pebble mine project, citing the "unique" environment of the Bristol Bay region.

Pebble Limited Partnership has proposed the copper and gold prospect for a site that straddles the Bristol Bay salmon fishery headwaters.

Bristol Bay is the largest sockeye salmon fishery in the world. Without at least a preliminary economic assessment, Walker and Mallott said in the letter, the Army Corps would be "unable to take a hard look at all reasonable alternatives" in the draft environmental review.

"Given the unique characteristics of the region, the mine proposed by Pebble Limited Partnership (PLP) must be held to an extraordinarily high standard," the letter said.

There are "too many unanswered questions" for the review to advance further, a statement from the governor's office said Saturday afternoon.

[Following pressure from Murkowski and others, Pebble comment period extended]

The Army Corps had previously extended the comment period from 30 days to 90 days for the controversial project, after pressure from Sen. Lisa Murkowski and others. That extended the comment period to June 29.

But that extension wasn't enough to allay concerns, Walker and Mallott said in Friday's letter.

Pebble Limited Partnership "has yet to demonstrate to us or the Alaska public that they have proposed a feasible and realistic project," the letter said.

Groups opposed to the Pebble project have previously criticized what they said was a rushed environmental review by the federal government.

In a written statement on Saturday, Pebble CEO Tom Collier criticized the governor's request.

"We expect this type of stall tactic from [environmental non-governmental organizations] opposed to any kind of development but not from the Governor of Alaska and especially when the project is on Alaska land," his statement said. "Frankly, the governor does not make a compelling case to suspend the NEPA process."

Collier also said Pebble believes it can responsibly operate the mine.

"The governor has said we have a high bar to demonstrate how we can mine and protect the salmon in the area around Pebble," his statement said. "It is this Corps Environmental Impact Statement process that will give Alaskans answers and assurance to this very issue."

Pebble is owned by Canadian company Northern Dynasty Minerals.

Good morning –

Chris is in vacation this week, but knowing our flight schedules are the same, it looks like the only availability would be Monday afternoon after we land (little after 3 pm). So I guess we'll be checked into the hotel by 4pm, and available to meet thereafter. We fly out weds morning at 8am.

Hi Chris and Tim –

AECOM's subject matter experts in geochem and hydro are interested in meeting you when we are in Anchorage for the Pebble site visit.

Will you have time to meet with them on either the afternoon of July 31 or the morning of Aug 2? I am available during both of these times and will accompany you. I believe the intent is to put a face to a name, but also they may have questions about our comments to-date and they may want to present info on the impact assessment. I will get more certainty/agenda before the meeting.

Please let me know if you will have time (e.g., 2 hours) on either of these dates and if you have a preference.

Thanks - Patty

Subject: RE: PLP Site Tours

Hi Tim-

Following are the EPA folks that would participate in the site visit:

Molly Vaughn, NEPA review lead, Anchorage
Tim Maley, hydrogeologist, Seattle
Chris Eckley, geochemist, Seattle
Patty McGrath, Mining Advisor, Seattle
Jill Nogi, NEPA unit manager, Seattle – Jill's attendance is uncertain, but will be firmed up soon

Dates that work for us include (Seattle folks would fly to Anchorage the day before):

7/30

7/31

8/20

8/21

We prefer the 7/31 and 8/21 dates, but really could make any of the above dates work.

In terms of an itinerary, the first priority would be to view the proposed locations of the mine facilities and any alternative locations for the mine site facilities that are being considered. If possible we would like to see the proposed road route to the Lake and ferry landings on each side. Ideally we would like to see the road route from the south Lake terminal to the Port site, but I expect this may not be possible in a day.

I am ccing Shane on this email as I have mentioned this trip to him and would be happy to coordinate on dates with the Corps or other agencies.

Please let me know as soon as possible, what date works for this tour. Feel free to call if you have questions.

Thanks-

Patty

Subject: PLP Site Tours

Patty:

Good to talk to you today. For planning purposes with Shane, please let me know the names of the people EPA would like to participate in a tour. Some prospective dates and a 'wish list' itinerary as soon as you have them will also help us identify what's possible for an out and back trip.

Thanks,

Tim Havey

Ashley, Heidi, Palmer, Cara and Carrie,

I'm suggesting this meeting as an opportunity for us to discuss how to effectively manage ORC, OGC and OW input on EPA's comments on preliminary Bristol Bay NEPA documents.

I think everyone has the same goal, to ensure that EPA's input on the NEPA process is in line with and helpful for any EPA actions related to Bristol Bay. I'm looking forward to a discussion on how to ensure we meet our shared goal in an effective and efficient as possible way.

Subject: Letter to the Administrator

Ryan,

I'm attaching a letter to Administrator Pruitt to this email. I would appreciate it if you could bring this to his attention. He spoke a couple of weeks ago to a group of conservative organizations. During that meeting, he was asked about the Pebble preemptive veto. His answers were conveyed to us, and this letter reacts to some of the things he said.

One of the things he said was that he was willing to hear new information about Pebble. This letter contains information which the Administrator clearly has not heard before. It also contains a request to meet with him so that we can discuss these matters in greater detail. Anything you can do to help facilitate such a meeting would, of course, be greatly appreciated.

Look forward to hearing from you.

Best,

Peter

Subject: FW: Bristol Bay - NEPA/404c Coordination Update

Hi Molly –

I said I would follow-up with you today about Heidi's review. As indicated below, unless issues are flagged, Heidi will not be reviewing so there is no need to build her into the schedule. I have sent her my schedule so she's aware of review constraints if issues are flagged for her by either me or Palmer.

Let me know if you have any questions!

Ashley

Subject: Bristol Bay - NEPA/404c Coordination Update

David,

Providing an update on follow-up from our 11/8/18 meeting about NEPA/404c coordination. Our goal was to check-in and work toward making sure that we are getting the right 404c related input to the NEPA team.

As a result of a few conversations and meetings the following has occurred.

- Palmer has confirmed that he is really likely one of the key people to provide technical 404c related input. And, that he doesn't really have a back-up. We talked about the fact that it is helpful that Mark Douglas, Kate Scofield (sp?) and Barb Butler are providing input.
- Palmer highlighted his main areas of focus to Molly and has communicated his schedule constraints.
- As for OGC, Heidi and Palmer have agreed that Palmer will flag issues for Heidi.
- As for OGC NEPA (Alison), the plan is for Ashley to be the primary reviewer, talk to Kim Owens when needed, and raise issues to Alison at OGC as needed. OGC's NEPA lawyers should not necessarily be directly involved because OFA has decided they don't need to see these Preliminary DEIS comments.
- Carrie Wehling at OGC will communicate to senior leaders David and Justin that we do not currently see a need to OGC front office involvement on the regional preliminary DEIS comments.

Altogether, I think we have made progress on clarifying how to make sure 404c technical and legal input is provided to the NEPA team in an effective manner. Happy to have more direction or suggestions and at this point I propose we have 404c/NEPA coordination as an agenda topic at our next check-in with you.

Subject: Pebble Project EIS Weekly Updates

Molly Vaughan,

You subscribed to weekly email notifications about the Pebble Project EIS and associated website content. Below is the list of the updates for the last week. For documents, the Upload Date reflects the date the file last changed, documents in the updated list with an older Upload Date reflect a change in the Title or Categorization.

Monday, November 05, 2018: 1 document(s) added or updated in Requests for Information

11/05/2018 [RFI 94: Alternative Option to Develop Pebble East Using Underground Mining](#)

Monday, November 05, 2018: 7 document(s) added or updated in Project Library

11/05/2018 [Keys to Soil Taxonomy - Tenth Edition 2006](#)

11/05/2018 [Memo - Additional Data Collected after Supplement to Environmental Baseline Document, Pebble Project](#)

11/05/2018 [Memo - Initial Geochemical Testing of Quarry Rock, Pebble Project](#)

11/05/2018 [Memo - PFS Geotechnical Stability Assessment of the Pebble West Pit](#)

11/05/2018 [Memo - Updated Synthetic Temperature and Precipitation Series for Pebble 1](#)

11/05/2018 [Pebble Mines Corp. Toxicity Testing Program 2011 - Gold Plant Process Water and Non-Gold Plant Process Water](#)

11/05/2018 [Pebble Port Alternatives Baseline Studies 2017 Chemistry Data Report](#)

Sunday, November 11, 2018: 27 document(s) added or updated in Requests for Information
